Friday Night

Jeremy Thomas PhD in Sociology

Cultural Diversity in Early Childhood Education

This presentation and workshop will explore the rewards and challenges of cultural diversity, especially those that can occur within early childhood education. Topics such as racial, ethnic, and religious diversity will be considered as well as how variations in language, customs, and family structures may impact the learning environment. Participants will have the opportunity to investigate how particular aspects of cultural diversity play out in their professional contexts, and they will be given tools that will allow them to both better celebrate diversity while also better preparing them to respond to challenges along the way.
