This year, the ISU-ISA club welcomes Technical Presentations from attendees and vendors.

Do you have new products you want to share?

Improved practices that benefit process, availability reliability or efficiency?

Case studies for best practice in instrumentation and automation?

Workforce improvement or education recommendations to discuss?

A presentation room will be available from 9:30 AM to 5 PM on April 30<sup>th</sup>.

Presentations will be publicized in the ISA program distributed at registration. It is strongly suggested that speakers promote their presentations among local interested participants to assure a good turnout.
