Important Reminders

- **Books must be in hand by Day 1**—online ordering is essential.

- These are **all new editions**; older versions will not match curriculum.
- **Code book format** can vary—hardcover, paperback, binder, tabbed—all okay as long as it's the **2017 Idaho edition**.
- Apprentices should **purchase only their current year's book**, plus the code book (one time).

Note: These are suggested links to reliable sellers—apprentices may also find these books at other online retailers or used-book platforms.
