HWE Shared Adventures - 4790

Instructor: Pam Johnson

Fee: \$0

Date: N/A **Time:** -

Location: Outdoors!

Content: This Hiking, Walking, Exploring (HWE) "class" consists of various outdoor "shared adventures" (about two per month) from April or May through September or October (weather dependent). Activities may include hiking, biking, float trips, horseback riding, caving/climbing (non-technical), zip lining, bird watching, etc. This is a participatory class, guided by class (your) input and available facilitators/coordinators, so we are open to try most anything. Activities can range from easy to strenuous and might last two hours or all day depending on the activity and/or selected location. Locations generally must be within 150 miles or 2.5 hours (driving time) of Idaho Falls. Class enrollees

will also be placed on the email distribution list for HWE's week-long trip announcements - generally, 3 or 4 trips per year (January - December).

"Shared adventures" refers to outdoor recreational experiences undertaken by two or more individuals who are working cooperatively toward a common goal, sharing in decision-making, other responsibilities, and costs as equitably as possible. While there is a designated Facilitator (i.e., coordinator or point of contact) for each activity, there is no "leader" in the sense of a single person who makes all the decisions and who owns all of the responsibility. Shared adventures are an excellent opportunity to get outdoors, embrace personal challenge, develop resilience and learn adaptability in a supportive group environment.

Credentials: Pam Johnson and Jeff Bryan are HWE committee members each with years of hiking experience and a good familiarity with many hiking and biking trails in the Eastern Idaho/Western Wyoming geographic area.

Facilitator: Jeff Bryan **Email:** bryanjd382@gmail.com **Phone:** 208-313-0184

Soaked & Sprouted Multi-Grain Bread - 4878

Instructor: Sue Gillmore

Fee: \$0 **Max:** 40

Date: 3/18/26 **Time:** 10:00 AM - 12:00 PM

Location: Bonneville County Extension Office
1542 E. 73 S., Idaho Falls

Content: The processes of soaking, fermenting (such as sourdough starters), or sprouting whole grains allows enzymes, lactobacilli and other helpful organisms to not only neutralize phytic acid, but also to break down complex starches, irritating tannins and difficult to digest proteins, including gluten. For many, this lessens their sensitivity to, or allergic reactions to specific grains used in baked goods. In this class, I'll demonstrate how to combine the processes of soaking and sprouting whole grains, including wheat, to make bread that is wonderfully light and delicious as well as easy on the gut to digest.

Credentials: I learned how to bake bread by watching and helping my mother as a youth then following her recipe when I set up house for myself. 13 years ago, I learned the science behind the "old fashioned" ways of soaking, fermenting, or sprouting whole grains to make bread the way my Great Grandmothers did it. That, along with finding a great recipe, was revolutionary for me and my family. I am happy to share how I make a whole wheat/multi-grain bread that is moist, soft, light and wonderfully delicious versus the typical homemade whole wheat bread that tends to be dry, dense, heavy and less appealing to the taste buds.

Land Use Decisions - 4858

Instructor: Jim Francis

Fee: \$0

Date: 3/20/26 **Time:** 10:00 AM - 12:00 PM

Location: ISU TAB 200

Content: Land Use Decisions: A City Council Faces the Declaration of Independence and the Constitution. Keying off many decades of exploring the meanings of democracy as a teacher and eight years on the Idaho Falls City Council, Jim Francis will confront the audience with the complexity of decision-making when it involves land use including zoning. The audience will be placed in the role of a city council and be required to make the decision as to how a parcel of land in a city will be zoned. As a city council, the audience will hear from three interest groups, all directly affected by the council's decision. In the end, the audience will be asked to defend their decision in the light of the purpose of government as expressed in the Declaration of Independence.

Credentials: Jim is currently a member of the City Council of Idaho Falls. Yet when people pin him down, he will claim his identity is that of a teacher of history having taught in the public schools and at the university level for 43 years. In his words, he went from teaching the theories of democracy to the practice of democracy when he was elected to the Council. He is noted for throwing textbooks in the trash and asking students to resolve for themselves historical problems, dilemmas, and issues.
